Canal Point School Teacherage Razed

The razing of the old teacherage building on the Canal Point School grounds is nearing completion by A. I. (Bud) Davis, Pahokee contractor, who put a crew of workmen on the job last week after the County Board of Public Instruction accepted Davis' bid to raze the teacherage and clear the site of debris for \$150, and Board Chairman George W. Slaton signed the contract.

The rambling, two-story wooden building, a Canal Point landmark, was erected for use as a teacherage in the pioneer days of the development of the Everglades when the Canal Point School was one of the largest in the area and living accommodations for school teachers were very scarce.

It had been used continuously as a residence for school teachers until a few years ago when it was condemned as unsafe for residential purposes and since then the School Board has been trying to dispose of the building through sale, removal or otherwise. For a time Canal Point civic groups opposed the School Board's attempt to dispose of the structure and asked that necessary repairs be made to render it useable but when the estimated cost of the repairs was disclosed the civic groups dropped their request.

"IT MEANS SO MUCH TO KEEP IN TOUCH"

*Uncle Sam made the bonds you own
an even better bargain!*

Now your maturing Series E Bonds can earn interest 10 more years at 3%

PRESENT TREASURY REGULATIONS make it possible for you to collect a return of as much as 80% on the Series E Savings Bonds you already own!

For now those Bonds which you invested in 10 years ago can go right on earning interest for ten more years without your doing a thing about it! That is true not only of the Bonds which you have held for ten years, but any other Series E Bonds which you have invested in in the meantime. And any Series E Bonds which you obtain now will also enjoy the extended earning period. They will start earning interest sooner and mature earlier, too, paying 3%, compounded semiannually.

The Bond you got for \$18.75 can now pay you \$33.67 . . . a \$37.50 Bond will be worth \$67.34 . . . and so on.

Of course, any Series E Bond may still be redeemed at any time after you have held it for two months. But, like any other form of saving, your Bonds will mean a great deal

more to you if you can hold on to them.

Are you one of the millions of Americans who are saving regularly with Savings Bonds through the Payroll Savings Plan? If you're not, why not start now? Invest regularly in Bonds through the Payroll Savings Plan where you work. Ask your pay office to save as little as 25c a week for you, or as much as you are able.

If you can save just \$5 a week regularly through the Plan, in five years you will have \$1,367.90 . . . in 9 years and 8 months, you'll have \$2,850.70 . . . and in 19 years and 8 months, \$6,872.45! This Plan is one sure way to save because it saves something out of every check *before* you have a chance to spend it.

So join the Payroll Savings Plan where you work today. Or, if you are self-employed, start the Bond-A-Month Plan where you bank. It's safe, it's sure, it's automatic. And you will be helping yourself *and* your country!

If you want to be paid
your interest as current income—
invest in 3% Series H

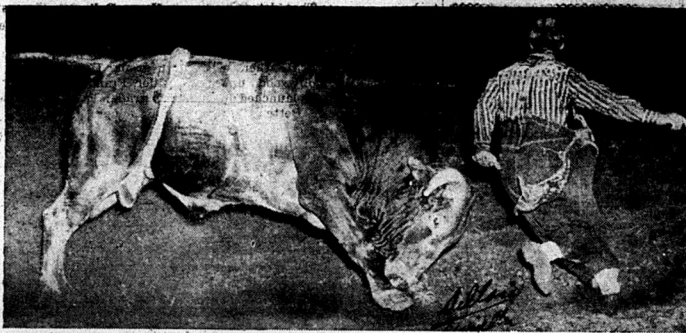

If you want a good, sound investment which pays you your interest by check every six months, ask at your bank about United States Government Series H Bonds. Series H is a new current income Bond available in denominations of \$500 to \$10,000. Redeemable at par after 6 months and on 30 days' notice. Matures in 9 years and 8 months and pays an average 3% interest per annum if held to maturity. Interest paid semiannually by Treasury check. Series H may be purchased at any bank, annual limit \$20,000.

Now even better! Invest more in Savings Bonds!

Tampa 2nd Largest City In Florida

Tampa is No. 2 city in the state of Florida by population and 49th in the U. S., according to results of the special census which was completed here late yesterday.

ville, in the 1950 census. The City expansion last May brought an added 82,228 persons into the City, the special census count revealed.

Florida cities line up this way by population:

Miami, 249,276; Tampa, 206,909; Jacksonville, 204,517, and St. Petersburg, 96,738.

Some 44 square miles were added to the City by the annexation laws passed by the Legislature last Spring.—Tampa Tribune.

From where I sit... by Joe Marsh

Wish I'd Said That

You know Miss Perkins. Well, she's been driving her own car around our town for a little more than 30 years.

The other day she had a bit of trouble parking down on Main Street. Didn't quite make it the first try, so she pulled out to start over when a fellow waiting to pass started tooting his horn impatiently.

On the second try, she was still having a little difficulty, and so this smart aleck hollered, "Lady, do you know how to drive?" "Yes, young man," Miss Perkins an-

swered, "I do. But I don't have time to teach you now."

From where I sit, it's not always easy to have a good answer ready when you need it. But when somebody insists that I vote for his candidate, for instance, or choose tea instead of a temperate glass of beer with dinner, I know the answer. It's all a matter of personal preference... and none of us like "backseat driving" from anybody.

Cinematic Chatter

By Malcolm Millar

Hello everybody! When Teresa Wright first saw Gary Cooper walking towards her in Hollywood she was so shy that she turned and ducked down a side street. A year later she portrayed Mrs. Lou Gehrig opposite Cooper. Now, after achieving stardom, she has lost some of her shyness and she retains all the charm that was hers as an unknown film player. Her personal history, compared to the turbulent biographies of most stars, is as tranquil as a mountain lake. She was born on October 27th in New York City. After a few years of boarding school in Maplewood, N. J., where she appeared in several school plays and was duly voted the girl most likely to succeed on the stage. During a trip to New York to see Helen Hayes in "Victoria Regina," she wrote Miss Hayes a nice little note and received an autographed photograph in return. That settled it. She was determined

to be an actress. That determination and more than the usual amount of talent carried her to Broadway, where Samuel Goldwyn saw her in "Life With Father." He brought her to Hollywood under contract and she was launched on a screen career as Bette Davis' daughter in "The Little Foxes." She was christened Muriel Teresa but adopted the name Teresa Wright, when another Muriel Wright, no relation, sustained a superior claim to Muriel through Actors Equity. Only her family and a few close friends call her Muriel now. Her favorite recreations are the theatre and dancing, her pet aversions, card games and parlor games. Her silliest economy is using cleansing tissue down to the last fragment. She is absent minded to a point and sometimes forgets to take price tags out of new clothes. Once at a radio broadcast she took a bow with the price tag fluttering from the sleeve of her coat. But her forgetfulness doesn't extend to her acting, she rarely misses a line. See you at the movies —Mal.

Christian Science Group Of Canal Point

How spiritual understanding of God brings health and harmony into human experience will be brought out in the Lesson-Sermon entitled "Soul" which will be read at Christian Science services Sunday.

The Bible selections include this citation from Psalms:

"Why art thou cast down, O my soul? and why art thou disquieted within me? hope thou in God: for I shall yet praise him, who is the health of my countenance, and my God" (42:11).

Among the passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy to be read will be the following:

"We cannot deny that Life is self-sustained, and we should never deny the everlasting harmony of Soul, simply because, to the mortal senses, there is seeming discord. It is our ignorance of God, the divine Principle, which produces apparent discord, and the right understanding of Him restores harmony" (390: 4-9).

The Responsive Reading includes the following verses from the Bible: "God be merciful unto us, and bless us; and cause his face to shine upon us: That thy way may be known upon earth, thy saving health among all nations" (Psalms 67: 1, 2).

Defense is your job, too!

THIS IS A DAY OF DREAMS COME TRUE... for the returning Korean War veterans pressing against the ship's rail and for their loved ones waiting on the dock. The counted days of waiting are over, the nightmare of war is behind them. These boys have been far across the seas doing a hard, dirty, bloody job... a job of defense—for you.

But defense is your job, too. It is our job to help make America's economy as strong and dependable as these men have made her military power. And your job can be not only easy but rewarding—in financial security for you and your family. Just buy U.S. Defense Bonds. Buy them now and buy them regularly. For your bonds and other forms of saving can make America strong. And in this warring world, *strength* is America's surest guarantee of peace.

So sign up for bonds today—through the Payroll Savings Plan where you work or the Bond-A-Month Plan where you bank. For your security and your country's, too, buy United States Defense Bonds regularly!

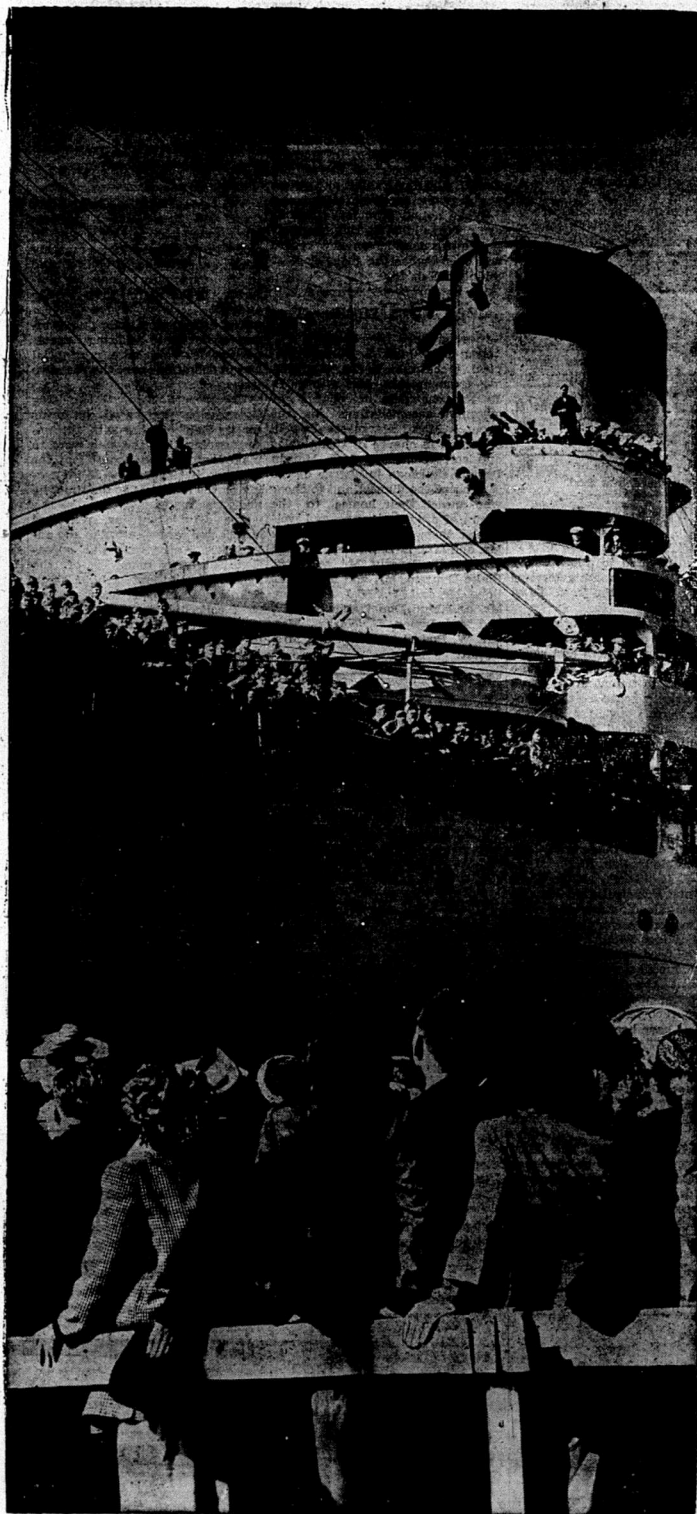

The U. S. Defense Bonds you buy give you personal financial independence

Don't forget that bonds are now a better buy than ever. Because now every Series E Bond you own can automatically go on earning interest every year for 20 years from date of purchase instead of 10 as before! This means that the bond you bought for \$18.75 can return you not just \$25—but as much as \$33.33! A \$37.50 bond pays \$56.66. And so on. For your security, and your country's too, buy U. S. Defense Bonds now! Bankers recommend them as one of the safest forms of investment.

Peace is for the strong...

Florida FFA Groups Attend State Fair

TAMPA—Thousands of FFA and FHA boys and girls from every section of the state swarmed over the grounds of the Florida State Fair to help smash all attendance records for the first week operation.

Tourist attendance was reported as heavier by General Manager J. C. Huskisson, and all indications point to even larger crowds through the second and final week. Steller attractions such as the Chrysler "New World in Motion" show, the Electrical Exposition, new U. S. Army Exhibit and others are drawing excellent attendance.

While actual attendance figures are not available at this time, officials are confident a new record will be set when the gates close at midnight Feb. 13.

Game Board Magazine Losing Cash Money

TALLAHASSEE—The State Game and Fresh Water Fish Commission took steps this week to curb financial losses of its monthly magazine "Florida Wild life" and to get employees to pay for uniforms purchased for them by the agency.

The action came following a report of the State Auditing Department which revealed a substantial loss in operations over the past two years.

The report showed that the Commission purchased uniforms for its field officers with the understanding that the men were to make monthly payments for the clothing, but there was \$5,141 owing on the uniforms at the time the audit was made.

Considerable money remained uncollected for subscription and advertising in the magazine operation. The office manager of the agency stated that nearly \$1,000 in past due advertising accounts had been collected since the Commission was reorganized, and efforts to collect on these past due accounts is continuing.
